Harlem

Our Budget Artificial Grass is our entry level grass. It is popular for temporary use or exhibition use due to its low cost. It can also be used in a domestic environment for patios, terraces, beside Hot tubs etc but because it is our cheapest budget grass it does not look as realistic or feel as nice as our better-quality grasses.

The appearance of this grass is a single shade of green with a straight pile. It looks similar to greengrocers' grass and the backing is visible at some angles.
